

# COUPLING 609 QF

# COUPLING 609 QF

– extend a profile without any tools !

The 609QF is a coupling used for profile extension that requires no tools.

Simply press the push button to insert the connector into the profile – the button then sits into a matching hole on the extension securing the joint.

Coupling 609 is available in two versions. 609QF with spring loaded buttons, suitable for tool free installations. 609 which is supplied with grub screws for more permanent structures

#### FACTS:

Made in aluminium.

Art No	Description	Size	
871 037 92	Coupling 609	17x17x250 mm	with screw
871 050 92	Coupling 609 QF	17x17x250 mm	with push button

Fast and easy extension of a aluminium profile. 609QF is mounted fast as a flash.

Stronger version of 609QF. Mounted with screw instead of push button. More suitable for permanent installations.
