

PORTABLE SYSTEM

The System with profile
since 1965

PORTABLE SYSTEM

– a fantastic portable solution !

The Foga portable system is an ideal solution for any event to create your lightweight display, counter or podium. We can offer standard or custom design solutions, limited only by your imagination.

The frames are based on Foga's unique profile system with strong functional couplings.

The system is easy to fold and carry with you. Ideal for use at trade shows, promotions and in-store demonstrations. We have profiles to create both fabric and panel solutions so the possibilities are endless.

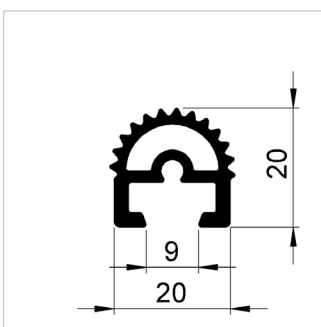

FACTS:

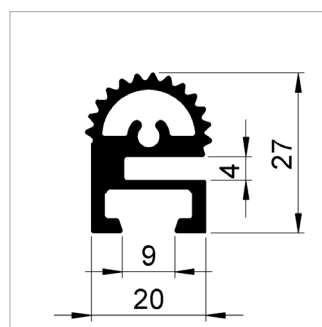

Natural anodised aluminium profiles are supplied in 5 m stock lengths or can be cut to custom sizes.

Recommended media: Panels (max 9 mm) or stretch fabric.

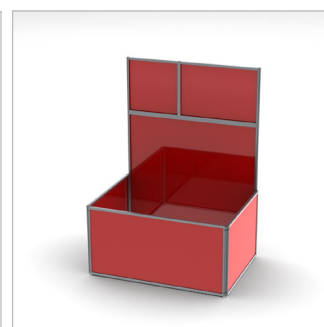

Art no	Description
